

DEPARTMENT OF METHODS OF PRESCHOOL AND PRIMARY EDUCATION

THE HISTORY OF THE CHAIR

The university was founded by the decree of the Kyrgyz Republic government on July 18, 1994, as the Kyrgyz-Uzbek Higher Technological College. This college was transformed into the Kyrgyz-Uzbek University by a decree of the Kyrgyz Republic president on March 31, 1997.

By order of the Ministry of Education and Science of the Kyrgyz Republic in January 2021, it was renamed the Kyrgyz-Uzbek International University named after Batyraly Sydykov (KUMU). The new Charter of the University was approved and registered as a legal entity by the Osh Regional Department of Justice on February 8, 2021 (Certificate No. 65654-3310-U-e). The date of initial registration of the university is March 11, 1998.

In 2001, the Kyrgyz-Uzbek University established the Faculty of Music and Pedagogy, which was also a part of the Pedagogical Institute at the University of K-UU.

The faculty consisted of three departments: Methods of Primary Education, Department of Music, and Pedagogy and Psychology. These departments trained primary school teachers and music teachers.

From 2001 to 2004, the Candidate of Pedagogical Sciences, Professor A.H. Khudaiberdiev, led the Department of Methods of Primary Education.

From 2005 to 2009, the Department of Methods of Primary Education was headed by the Candidate of Pedagogical Sciences, Associate Professor R.P. Anarkulov.

Due to the reduction of the specialty "Music" in the 2010-2011 academic year, by decision of the Academic Council of K-UU, the Department of Primary Education Methodology was attached to the Faculty of History and Philology. From 2010-2012 academic years, the department was called Uzbek Philology and Pedagogy. Candidate of Pedagogical Sciences, Associate Professor Kadyrova M.S. was appointed head of the department.

In connection with the abolition of the specialty Uzbek language and literature in the 2012-2013 academic year, on the basis of order № 65 dated 14.09.2012, the Department of Pedagogy and Methods of Primary Education was established, the department was headed by Associate Professor Kadyrova M.S.

In September 2013-2014, the department was transferred to the Faculty of Natural Education, the department was headed by Associate Professor Kadyrova M.S.

During the development of the faculty, it was divided into two departments: "Pedagogy and methodology of primary education" and "Pedagogy and Psychology".

Currently, the department is part of the Faculty of Humanities and Pedagogy of the Kyrgyz – Uzbek International University named after B.Sydykov, the head of the department is Ph.D., Associate Professor Kadyrova M.S.

At present, Department of Methods of Preschool and Primary Education has 20 full-time teachers and 1 laboratory assistant of the department. Among them are 2 doctors of sciences, professors, 7 candidates of sciences, associate professors; 8 senior lecturer, 3 lecturer. Of these, 1 is a

professor of the RAE, 1 is an honored Worker of Science and Education of the RAE, 3 are excellent education KR.

The department is producing in the following areas of training:

Directions: 550700 Pedagogy. Profile: "Pedagogy and methodology of primary education", "Pedagogy and methodology of preschool education" (**Bachelor's degree**).

Directions: 550700 Pedagogy. Profile: Pedagogy and methodology of primary education, Pedagogy and methodology of preschool education (**qualification (degree) Master**).

The main goal of the educational, research and innovation policy of the department is to ensure the training of specialists, scientific and scientific-pedagogical personnel at the level of world qualification requirements, effective use of educational, scientific, technical and innovative potential.

The main task of the department this year is to further improve the quality of theoretical and practical training of graduates, maintain a high level of teaching academic disciplines, improve the quality of student training by improving the organization of the educational process, scientific and methodological work, equipping additional literature in the classrooms of departments.

This year, the teaching staff has successfully solved the task of completing the development of basic educational programs. The teachers solved the problem of mastering modern educational technologies, activating the cognitive activity of students and increasing their responsibility for the results of educational work.

The department is constantly working to expand the electronic database of test assignments in all disciplines assigned to the department, teachers have placed them in the AVN information system, which will help students master training courses. The teachers of the department are actively implementing a point-rating system for evaluating the achievements of students and masters in the process of professional training.

The department carries out a lot of work related to the education of the younger generation, which is entrusted to teachers with many years of practical teaching experience. Educational, methodological, scientific and research work is carried out in general pedagogical and socio-pedagogical disciplines, educational work among students, as well as training of scientific and pedagogical personnel. The educational process is carried out on the basis of the use of advanced learning technologies, taking into account the best practices of world practice.

In Osh region, the demand for specialists of the department is quite high. Every year, more than 78-85% of graduates of the department get jobs in educational organizations.

ОБРАЗОВАТЕЛЬНАЯ ПРОГРАММА

The educational process in the field of training 550700 Pedagogy is organized at the department of "PMNO", the purpose of the educational program is: to train primary school teachers and preschool teachers who are able to solve professional problems in the field of pedagogical education and successfully work in their chosen field of activity, possess universal, professional and special competencies, tolerance, use a variety of techniques, methods and tools education, contributing to its social mobility and sustainability in the labor market.

The department has personal computers, multimedia systems, televisions, audio recordings and videos for conducting the educational process and scientific conferences. An educational website that contains information about the university, educational literature, exams, materials for in-depth study in individual subjects, Olympiad tasks and their solutions, regulatory documents; gyms for physical education;

ОРГАНИЗАЦИЯ ВОСПИТАТЕЛЬНОЙ РАБОТЫ

Upbringing work by teachers is carried out regularly. The tutors hold talks, debates, and various events dedicated to significant dates, where students are instilled with feelings of patriotism, analytical and critical thinking skills, and assessments of the modern world with a focus on national and universal values.

Students of the Department of Primary Education are distinguished by responsibility, civic engagement, solidarity, great enthusiasm, and sociability. They actively participate in the life of the university, participate in international and national Olympiads, competitions, seminars, and show their activity outside of university life.

Special attention is paid to the cultural and aesthetic education of students of the department and control over their social status. A cultural and aesthetic center uniting talented students, equipped with excellent musical instruments, the Dostuk sports club, various sports sections – "Volleyball", "Basketball", "Ordo", "Football", "Table tennis", "Athletics", "Toguz Korgol", "Chess", "Erkin Kurosh", etc.

In addition, students have access to a student canteen, medical center, and dormitory with 360 beds. Each academic year, orphaned and socially vulnerable students from low-income backgrounds receive social benefits, as well as exemption from 50% and 25% of annual fees under the contract. In addition, students have access to a student canteen, medical center, and dormitory with 360 beds. Each academic year, orphaned and socially vulnerable students from low-income backgrounds receive social benefits, as well as exemption from 50% and 25% of annual fees under the contract.

ПРАКТИКА СТУДЕНТОВ

Directions: 550700 Pedagogy. Profile: "Pedagogy and methodology of primary education", "Pedagogy and methodology of preschool education" (**Bachelor's degree**).

- Research work in the third semester (6 weeks);
- Research work in the IV semester (10 weeks);
- An agreement has been signed between the district schools, colleges and universities of the Osh region and the city of Osh.

Practitioners consolidate the knowledge and skills acquired by students through mastering theoretical courses, developing practical skills and contribute to the integrated formation of general cultural, general professional and professional competencies of students.

The field of professional activity of graduates who have completed the bachelor's and master's degree programs includes: education, social sphere, culture. The specifics of the graduate's professional activity are determined by the universalism of the pedagogical profession of a primary school teacher.

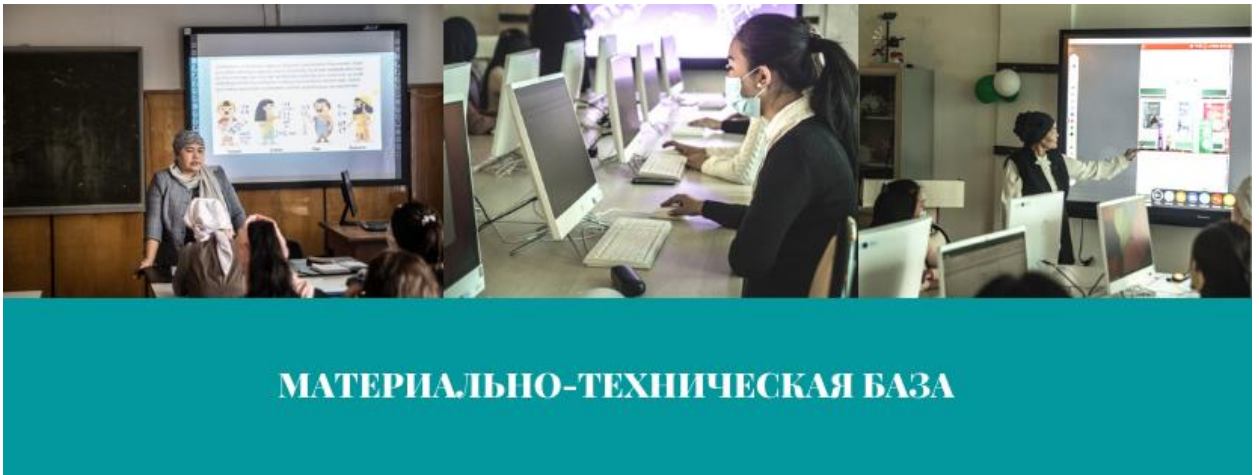

A bachelor's and master's degree graduate is a professionally trained methodologist, a teacher–researcher who is able to work in various types of educational institutions (secondary schools, gymnasiums, lyceums, institutions of additional education education), a scientific and pedagogical worker at a college and university, a manager in the field of primary education.

As part of strengthening partnerships and improving the skills of teachers of the department, they visit the following partner educational institutions, hold joint events (conferences, round tables, trainings), work on research projects:

- OshSU;
- KSU named after I. Arabaev;
- Alisher Navoi State Pedagogical University (Uzbekistan);
- TSPU named after Nizami (Uzbekistan);
- ANDU named after Z. Babur; (Uzbekistan);
- KFU Elabuga Institute (branch) (Russia);
- Abai State Pedagogical University (Kazakhstan);

In order to exchange experience, teachers of the department undergo academic mobility in partner universities of the Republic of Uzbekistan, Kazakhstan and the Russian Federation. The leading teachers of the department, M.S. Kadyrova, J.R. Imaraliev and G.A. Abduvalieva, completed advanced training at the Yelabuga Institute of the Kazan Federal University of the Russian Federation.

МАТЕРИАЛЬНО-ТЕХНИЧЕСКАЯ БАЗА

The University has a material and technical base that provides all types of disciplinary and interdisciplinary training, lecture, practical and laboratory classes, project execution, group and individual consultations, ongoing monitoring and intermediate certification, as well as including facilities for independent work.

Information support of the educational process is also well established. All computer classes and electronic libraries are connected to each other and connected to the Internet. Monitoring of the educational process is carried out through the AVN information program. The University's website (www.kuu.kg) the necessary documents and data are being implemented and uploaded in a timely manner. There is also a Granit TV studio equipped with the latest technical equipment, the editorial office of the student newspaper "Planet of Friendship".
